PLATINUM GAS RADIANT HEATERS

SLIM & STYLISH

NEVER HAS A GAS RADIANT HEATER PROVIDED AESTHETIC APPEAL LIKE THE PLATINUM RANGE. THE HEATER IS A DESIGN ELEMENT IN ITS OWN RIGHT.

Available in:

- 3-Burner or 5-Burner
- Natural or Propane Gas

OUTSTANDING AESTHETICS

The 'tinted' ceramic medium transforms the obtrusive red glare emitted by traditional burners into a soft red glow which conveys a feeling of "warmth". This softened glow does not compromise heat output and is a significant aesthetic improvement not seen in any other gas radiant heaters.

- Stylish and unique design
- Slim and streamlined
- Brushed stainless steel finish
- Patented design & technology
- Attractive tinted translucent ceramic medium

WHERE SAFETY AND INNOVATION MEET

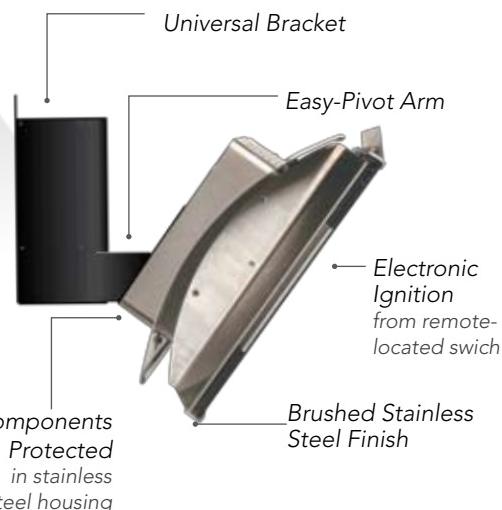

Electronic controls allow automatic re-ignition if the heater goes out. If the heater does not re-ignite for any reason, the integrated flame failure safety shut-off control turns the heater off immediately.

- Burners protected behind high-temperature translucent ceramic medium
- Flame failure safety shut off
- Gas approved
- PATENTED

THE TRANSLUCENT CERAMIC MEDIUM PROVIDES:

- A SLEEK AND STYLISH APPEARANCE
- EVEN, COMFORTABLE HEAT DISTRIBUTION
- WIND RESISTANCE (up to 12MPH)
- A SOFT RED GLOW WHICH CONVEYS A FEELING OF WARMTH

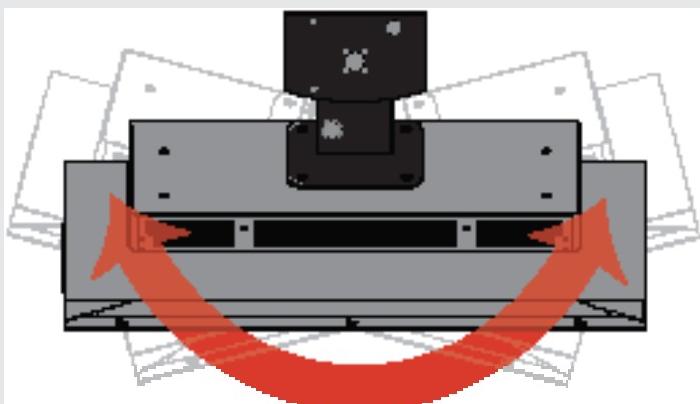

INNOVATION

HEAT AN ENTIRE VENUE VIA ONE SWITCH

One or multiple units can be switched on and off simultaneously from a single remote-located switch.

- Electronic ignition at the touch of a button
- Wind resistant - burners protected behind translucent ceramic medium
- Even and comfortable heat distribution

EASY-PIVOT ARM TO ADJUST THE DIRECTION OF HEAT PROVIDES GREATER VERSATILITY AND HEAT COVERAGE

PLATINUM GAS RADIANT HEATERS

The Lakes Hotel
Sydney, Australia

“We love the modern, stylish look of the heaters.

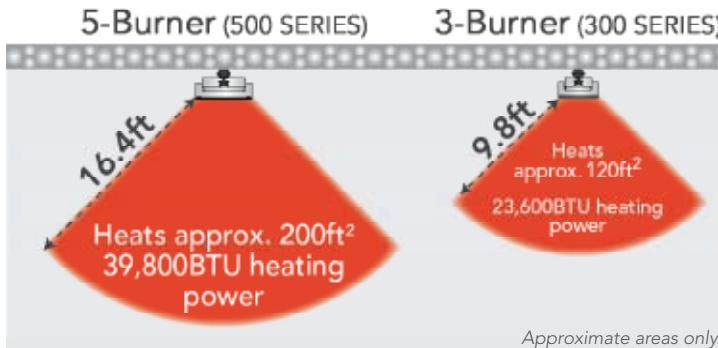

We needed a heating solution which complimented our new renovations and nothing came close to Platinum in terms of style and functionality. **”**

*Allan DePaoli
Group Facilities Manager - Castle Hill Club*

FLEXIBLE & COST EFFECTIVE

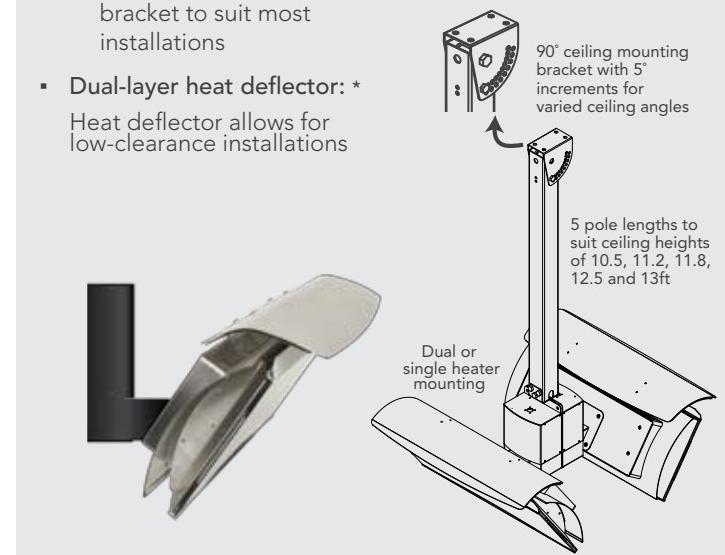

- Effective utilisation of gas
- Heats large areas quickly and efficiently
- 3-burner and 5-burner models available
- Available in Natural or Propane Gas
- Suitable for commercial and domestic outdoor use

HEATING AREA

ACCESSORIES

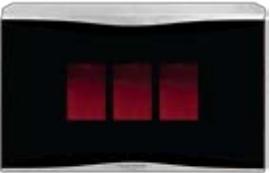

- **Ceiling poles (black electro plated): ***
The dual-directional ceiling mount pole offers greater positioning versatility in larger open areas.
 - Dual or single heater mounting
 - 5 lengths to suit ceiling heights of 10.5, 11.2, 11.8, 12.5 and 13ft
 - Adjustable mounting bracket to suit most installations
- **Dual-layer heat deflector: ***
Heat deflector allows for low-clearance installations

*All accessories sold separately. See part numbers in table on next page.

CALORTECH GAS RADIANT HEATERS

CALORTECH Gas
BY BROMIC

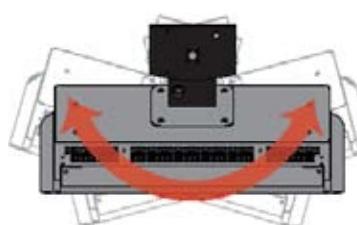

Available in:

- 3-Burner or 5-Burner
- Natural or Propane Gas

FEATURES:

- Attractive matt black finish (also available in stainless steel on request)
- Universal bracket — easy upgrade from 3-burner to 5-burner heaters. No additional plumbing or wiring required.
- Bi-directional easy-pivot arm — 20° rotation each side.
- Electronic ignition — one or multiple units can be switched on and off simultaneously from a single remote-located switch.
- Automatic re-ignition — should the heater not re-ignite for any reason, the integrated "Flame Failure Safety Shut-off Control" turns the heater off immediately.
- Stainless steel casing — components are protected from tampering. Assists in preventing dirt and dust from accumulating on the wiring and components.
- Patent pending

Easy-pivot arm to adjust the direction of heat.

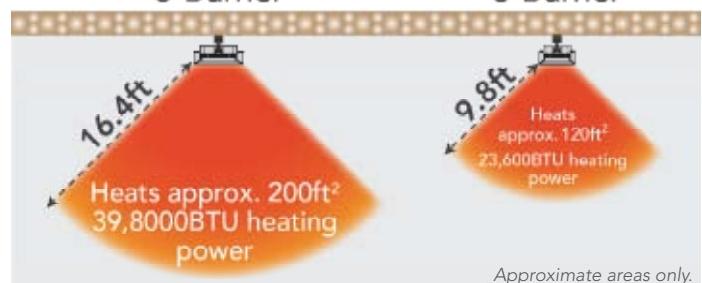

Greater versatility and heat coverage.

20° rotation each side.

5-Burner

3-Burner

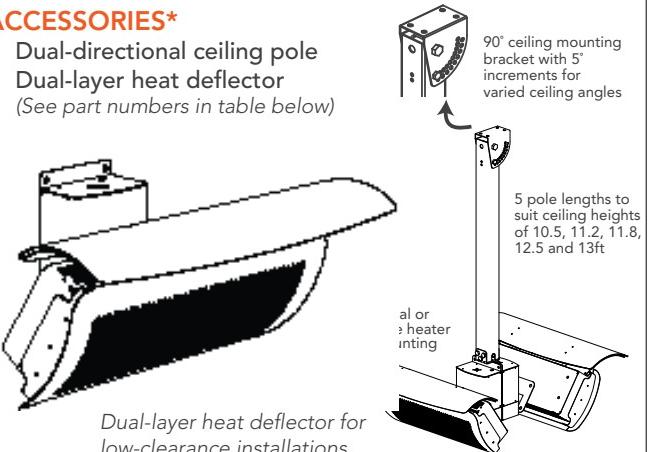

Approximate areas only.

ACCESSORIES*

- Dual-directional ceiling pole
- Dual-layer heat deflector
(See part numbers in table below)

MINIMUM INSTALLATION CLEARANCES

PLATINUM ELECTRIC HEATERS

WIDE-ANGLE DIRECTED HEATING

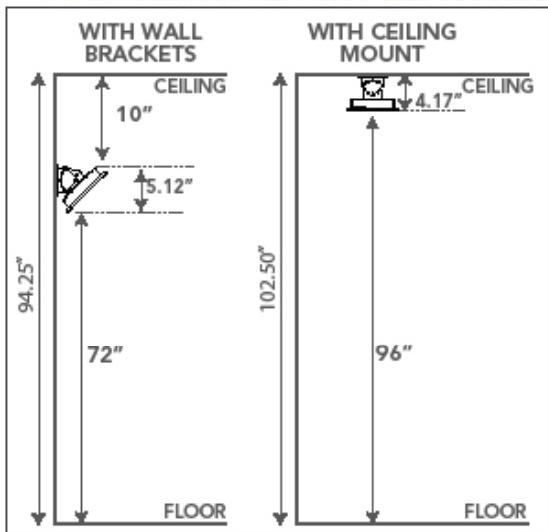

AVAILABLE IN
1500W
HEAT OUTPUT

FEATURES:

- Ultra-thin and stylish design
- Non-glowing — does not interfere with the atmosphere created by your venue or environment.
- Efficient directional spot heating.
- Concealed wiring for added safety.
- Heat Zones — one or more heaters can be switched on and off simultaneously from a single remote-located switch.
- Platinum electric heaters can also be integrated into smart control systems.
- Weather resistant and wind resistant
- Suitable for commercial outdoor and indoor heating applications such as restaurants, cafes, bars and clubs, factories, office spaces, designated smoking areas, public areas, hotels and more.
- Mounting Options:
 - Wall or Ceiling mounting bracket with angle adjustment of 15°, 30° and 45° each side.
 - Ceiling chain suspension.
